We've seen another year come and go  
We put up our tree and mistletoe  
Scatter round town  
Searching for the perfect I don't know...

Get down that old train set and tangled lights  
Looks like I'll be up way late tonight  
Playing with the memories of long ago

**But this year is the best year ever  
Wish this season could last forever  
If this feelin' went on I'd never look back again  
It's the best year ever**

See these old pictures I had to find  
Play Johnny mathis, then hit rewind  
34<sup>th</sup> street, sesame street and Charlie Brown

It's not that the old times weren't good times  
Hands on a face can be so unkind  
But I'm far more grateful  
for the moment we have now CHORUS

We've seen another year come and go  
We put up our tree and mistletoe  
Come over here and kiss me...  
hold me and don't let go CHORUS
