This child is God
While the world may not know it yet
He'll teach and heal even raise the dead
He's come to save us all

The child is God
Kings and shepherds a stable set
Sometimes even I forget the humble baby in a stall

This child is Heaven on Earth
And all the universe proclaims the love of God
the son of virgin birth, the lowly saw him first
kings later might have found it odd
that little baby... the child was God

The child was God
looking back may be easy to see
We know the story but do we believe He came to save us all

The child was God
made to carry and bear our sin
Gift so great we could enter in Heaven's mighty hall

The child was Heaven on Earth
and all the universe proclaimed the love of God
the son of virgin birth, the lowly saw him first
kings later might have found it odd
that little baby... the child was God

Lord let your mercy show, help all men to know
How mighty you can be
With my every move, and every word I prove
Just how lowly I can be
Just as you did for me in a stable on Christmas eve

Bass, Gtrs, Organ, Wurly, Vocals: Joe Hand
Drums: Tony Morra
