*V1*

By Accident I found you  
By chance you came to me  
A fortune falling out of heaven  
Greatest pearl out of the sea

By coincidence I found you  
Shiny diamond in the sand  
Way more than I imagined... far better than I could plan

*CHORUS*

Once in million million years  
Could the stars align and lead us here  
I'm sure happenstance didn't have a chance  
Baby we were meant to be

A million angels stood up and cheered  
Sang "Halleluia" as the clouds disappeared  
Baby can't you see, a love like you and me  
Happens once in a million million years

*V2*

It's no accident I found you  
No coincidence it seems  
When you walked into my being  
and came to life out of my dreams

Write our name into the heavens  
In stone and sand and clay  
I'll hold on to you forever... forever and a day
